

All your
weight management
innovation
in one place.
We are the future of
functional nutrition.

Maintain Medical

Maintain Medical develops sugar-free, high-fiber effervescent tablets that make long-term weight maintenance effortless—and globally scalable. We solve consumer compliance issues with a modern format that delivers clinically backed benefits in a delicious, dissolvable form.

Mission

We're addressing the missing piece in weight regulation: maintenance. While most solutions focus only on short-term weight loss, our effervescent fiber tablets are designed for daily use—supporting satiety, digestive health, and sustainable weight control.

SCALABLE PRODUCT

- Drop into water, dissolve, and enjoy—no messy powders or hard pills
- Naturally sugar-free and clean-label
- Clinically linked to satiety and weight control
- Designed for home, office, and on-the-go lifestyles

INVESTMENT HIGHLIGHTS

- Global weight management market worth hundreds of billions
- Strong demand for daily-use supplements that support gut health
- Rising success of konjac-based and effervescent formats
- Differentiated product in a high-ROI, under-addressed market
